

Ground Plates w/Ground Wire

Grounding wire construction is soft drawn bare copper meeting the requirements of ASTM Specification B-3. The plate is cut to size from sheets of copper alloy 110. The ground wire is connected to the plate with a mechanical rivet as well as a weld joint.

Application: Suitable for use in grounding applications as an alternative to ground rods.

Construction Plate: Copper alloy 110

Conductor: Soft drawn bare copper (ASTM Spec. B-3)
Solid (6 awg)

Plate Dimensions	Ground Wire Length	Ground Wire Size
12" x 36" x .064	25'	6 awg
4" x 96" x .064	25'	6 awg
4" x 36" x .064	25'	6 awg

Regency's Grounding Plates are manufactured for the purpose of grounding applications as an alternative to ground rods.
